Issuing Officer
Guidance Notes on the Use of
The Standard Tender Document

These guidance notes have been prepared by the CPTU to assist a Procuring Entity in the preparation, using the Standard Tender Document (STD), for the procurement of Goods and Related Services. The Procuring Entity should also refer to the Public Procurement Regulations 2003 and the Public Procurement Procedures, issued to supplement the Regulations.

The use of STD (PG3) applies when a Procuring Entity (the Purchaser) wishes to select a Tenderer (a Supplier) for the supply of Goods and Related Services for which the Contract award is being determined on the basis of the lowest evaluated Tender.

The use of STD (PG3) also applies when a pre-qualification process has NOT taken place before the Tender document is issued. For procurement of Goods, pre-qualification is not usually necessary; unless there is a procurement requirement of specialised nature or for custom-designed equipment.

STD (PG3) is based upon internationally acceptable model formats, which have been adapted to suit the particular needs of procurement within Bangladesh. STD (PG3) has 8 Sections, of which Section 1 (Instructions to Tenderers) and Section 3 (General Conditions of Contract) must not be altered or modified under any circumstances. The Invitation for Tenders (IFT) is a copy of the published advertisement that provides relevant and essential information to help Tenderers to decide whether or not to participate in the particular Tender; this is provided in the Tender Document for information only.

The way in which a Procuring Entity addresses its specific needs is through the information provided in the Tender Data Sheet (TDS) and the Particular Conditions of Contract (PCC) as well as in the detailed requirements of the procurement in the Schedule of Requirements, the Technical Specifications and/or the Drawings.

STD (PG3), when properly completed will provide all the information that a Tenderer needs in order to prepare and submit a Tender. This should provide a sound basis on which a Procuring Entity can fairly, transparently and accurately carry out a Tender evaluation process on the Tenders submitted by the Tenderers.

The following briefly describes the Sections of the STD (PG3) and how a Procuring Entity should use these when preparing a particular Tender Document.

Section 1. Instructions to Tenderers (ITT)

This Section provides relevant information to help Tenderers prepare their Tenders. Information is also provided on the submission, opening, and evaluation of Tenders and on the award of Contract.

This Section also contains the criteria to be used by the Purchaser in order to determine the lowest evaluated Tender and the qualifications of the Tenderer to perform the Contract.

*The text of the clauses in this Section shall not be modified.*
Section 2. Tender Data Sheet (TDS)

This Section provides the information that is specific to each object of procurement and that supplements the information or requirements included in Section 1: Instructions to Tenderers.

Section 3. General Conditions of Contract (GCC)

This Section provides the General Conditions of Contract that will apply to the Contract for which the Tender document is issued.

The text of the clauses in this Section shall not be modified.

Section 4. Particular Conditions of Contract (PCC)

This Section provides clauses specific to the particular Contract that modify or supplement Section 3: General Conditions of Contract.

Section 5. Tender and Contract Forms

This Section provides the standard format for the Tender Submission Sheet (Form G-1), Price Schedule (Form G-2), Specifications Submission Sheet (Form G-3), Tenderer Information Sheet (Form G-4), Manufacturer’s Authorisation Letter (Form G-5) and Tender Security (Form G-6) to be submitted by the Tenderer.

This Section also contains the form of the Notification of Award (Form G-7) and Contract Agreement (Form G-8), which when completed, incorporates any corrections or modifications to the accepted Tender relating to amendments permitted by the Instructions to Tenderers, the General Conditions of Contract (GCC), and the Particular Conditions of Contract (PCC).

The forms for Performance Security (Form G-9) and Advance Payment Security (Form G-10), when required, are to be completed by the successful Tenderer after Contract award.

Section 6. Schedule of Requirements

This Section provided the List of Goods and Delivery Schedule and List of Related Services and Completion Schedule and must be carefully prepared by a Procuring Entity for each object of procurement.

Section 7. Technical Specifications

This Section provides the detailed Technical Specifications that describe the Goods and Related Services to be procured.

Section 8. Drawings

This Section contains any Drawings that supplement the Technical Specifications for the Goods and Related Services to be procured.

30.3 The Purchaser may, at its discretion, extend the deadline for the submission of Tenders by amending the Tender Document in accordance with ITT Clause 10, in which case all rights and obligations of the Purchaser and Tenderers previously subject to the deadline shall thereafter be subject to the new deadline as extended.
31. Tender: Submitted Late

31.1 Any Tender received by the Purchaser after the deadline for submission of Tenders in accordance with ITT Clause 30 shall be declared late, will be rejected, and returned unopened to the Tenderer.

The corresponding substitution or modification of the Tender must accompany the respective written notice. The written notice must be:

33.1 The Purchaser shall open the Tenders in public, including modifications or substitutions made pursuant to ITT Clause 32, at the time, on the date, and at the one place specified in the TDS. Tenders for which an acceptable notice of withdrawal has been submitted pursuant to ITT Clause 32 shall not be opened. Tenderers or their authorised representatives shall be allowed to attend and witness the opening of Tenders, and shall sign a register evidencing their attendance.

33.2 The name of the Tenderer, Tender modifications, substitutions or withdrawals, total amount of each Tender, number of corrections, discounts, and the presence or absence of a Tender Security, any alternatives if so permitted, and such other details as the Purchaser, at its discretion, may consider appropriate, shall be read out aloud and recorded. Only those discounts and alternative offers read out at the Tender opening shall be considered for evaluation. All pages of the original of the Tenders, except for un-amended printed literature, will be initialled by a minimum of three (3) members of the Purchaser’s Tender Opening Committee.

33.3 Minutes of the Tender opening shall be made by the Purchaser and furnished to any Tenderer upon receipt of a written request. The minutes shall include, as a minimum: the name of the Tenderer and whether there is a withdrawal, substitution or modification, the Tender Price, per lot if applicable, including any discounts and alternative offers, and the presence or absence of a Tender Security, if one was required.

33.4 Tenders not opened and read out at the Tender opening shall not be considered, irrespective of the circumstances, and shall be returned unopened to the Tenderer.

33.5 No Tender shall be rejected at the Tender opening, except for late Tenders, which shall be returned unopened to the Tenderer pursuant to ITT Clause 31.

34. Tender: Confidentiality

34.1 After the opening of Tenders, information relating to the examination, clarification, and evaluation of Tenders and recommendations for award shall not be disclosed to Tenderers or other persons not officially concerned with the evaluation process until after the award of the Contract is announced.

35. Tender: Clarification

35.1 The Purchaser may ask Tenderers for clarification of their Tenders in order to facilitate the examination and evaluation of Tenders. The request for clarification and the response shall be in writing, and any changes in the prices or substance of the Tender shall not be sought, offered or permitted, except to confirm the correction of arithmetical errors discovered by the Purchaser in the evaluation of the Tenders, in accordance with ITT Clause 39.
36. Tenderer: Contacting the Purchaser

36.1 Following the opening of the Tenders and until the Contract is signed no Tenderer shall make any unsolicited communication to the Purchaser or try in any way to influence the Purchaser’s examination and evaluation of the Tenders.

36.2 Any effort by a Tenderer to influence the Purchaser in its decisions on the examination, evaluation, comparison, and post-qualification of the Tenders or Contract award may result in the rejection of its Tender.

36.3 Notwithstanding ITT Sub Clause 36.1, from the time of Tender opening to the time of Contract award, if any Tenderer wishes to contact the Purchaser on any matter related to the tendering process, it should do so in writing.

37. Tender: Responsiveness

37.1 The Purchaser’s determination of a Tender’s responsiveness is to be based on the contents of the Tender itself without recourse to extrinsic evidence.

37.2 A substantially responsive Tender is one that conforms in all respects to the requirements of the Tender Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:

(a) affects in any substantial way the scope, quality, or performance of the Goods and Related Services specified in the Contract; or

(b) limits in any substantial way or is inconsistent with the Tender Document, the Purchaser’s rights or the Tenderer’s obligations under the Contract; or

(c) if rectified would unfairly affect the competitive position of other Tenderers presenting substantially responsive Tenders.

37.3 If a Tender is not substantially responsive to the Tender Document it shall be rejected by the Purchaser and shall not subsequently be made responsive by the Tenderer by correction of the material deviation, reservation or omission.

37.4 There shall be no requirement as to the minimum number of responsive Tenders.

38. Tender: Non-conformities, Errors, and Omissions

38.1 The Purchaser may regard a Tender as responsive even if it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirement set forth in Tender Document or if it contains errors or oversights that are capable of being corrected without affecting the substance of the Tender.

38.2 Provided that a Tender is substantially responsive, the Purchaser may request that the Tenderer submits the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Tender related to documentation requirements. Such omission shall not be related to any aspect of the price of the Tender. Failure by the Tenderer to comply with the request may result in the rejection of its Tender.
39. Tender: Correction of Arithmetical Errors

39.1 Provided that the Tender is substantially responsive, the Purchaser shall correct arithmetical errors on the following basis:

(a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless, in the opinion of the Purchaser, there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;

(b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

(c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetical error, in which case the amount in figures shall prevail subject to (a) and (b) above.

39.2 Any arithmetical error or other discrepancy, as stated in ITT Sub-Clause 39.1, is found it shall be immediately notified to the concerned Tenderer.

39.3 Any Tenderer that does not accept the correction of errors as determined by the application of ITT Sub-Clause 39.1, its Tender shall be disqualified and its Tender Security may be forfeited.

40. Tender: Preliminary Examination

40.1 The Purchaser shall firstly examine the Tenders to confirm that all documentation requested in ITT Clause 17 has been provided, and to determine the completeness of each document submitted.

40.2 The Purchaser shall assess whether the Tenderer’s Qualifications as per Section C are substantially met. Any negative determination by the Purchaser will result in rejecting the Tender as non-responsive without the need for further evaluation as per ITT Clauses 41 and 42.

41. Tender: Technical Evaluation

41.1 The Purchaser shall secondly examine the Tender to confirm that all terms and conditions specified in the GCC and the PCC have been accepted by the Tenderer without any material deviation or reservation.

41.2 The Purchaser shall evaluate the technical aspects of the Tender submitted in accordance with ITT Clause 23, to confirm that all requirements specified in Section 7: Technical Specifications, have been met without any material deviation or reservation.

41.3 If, after the examination of the terms and conditions and the technical aspects of the Tender, the Purchaser determines that the Tender is not substantially responsive in accordance with ITT Clause 37, it shall reject the Tender.

42. Tender: Financial Evaluation

42.1 The Purchaser shall thirdly evaluate each Tender that has been determined, up to this stage of the evaluation, to be substantially responsive.

42.2 To evaluate a Tender, the Purchaser shall consider the following:

(a) the Tender price as quoted in accordance with ITT Clauses 18 and 20, excluding local taxes (VAT and other taxes) which will be payable on the goods if contract is awarded);

(b) price adjustment for correction of arithmetical errors pursuant to ITT Sub-Clause 39.1;

(c) the applicable economic factors of evaluation set out in ITT Sub-Clause 42.3.
42.3 The Purchaser’s economic evaluation of a Tender will take into account, in addition to the delivered price offered in accordance with ITT Sub-Clause 18.1, one or more of the factors affecting the economic value of the Tender from the list below, as specified in the TDS, and as quantified in ITT Sub-Clause 42.5:

(a) the delivery schedule offered in the Tender; and

(b) the cost of components, mandatory spare parts, and service;

(c) the availability in Bangladesh of spare parts and after-sales services for the equipment offered in the Tender;

(d) the projected operating and maintenance costs during the anticipated life-cycle of the equipment;

(e) the performance and productivity of the equipment offered; or

(f) any other specific criteria as specified in Section 7: Technical Specifications.

42.4 For those factors specified in ITT Sub Clause 42.3 which are selected to be considered in the evaluation of the Tenders, one or more of the following quantification methods shall be applied, as specified in the TDS.

(a) Delivery schedule:

(i) The goods covered under the IFT are required to be delivered at the time specified in Section 6: Schedule of Requirements. Treating the Tender with the earliest delivery as the base, a delivery ‘adjustment’ will be calculated for other Tenders for the purpose of evaluation, by applying a percentage, as specified in the TDS, of the Tender price for each week of delay beyond the base, and this will be added to the Tender price for evaluation. No credit shall be given to early delivery.

or

(ii) The goods covered under the IFT are required to be delivered within an acceptable range of weeks as specified in Section 6: Schedule of Requirements. No credit shall be allowed to earlier deliveries, and Tenders offering delivery beyond this range shall be treated as non-responsive. Within this acceptable range, an adjustment per week, as specified in the TDS, will be added, for the purpose of evaluation, to the Tender price of Tenders offering deliveries later than the earliest delivery period specified in Section 6: Schedule of Requirements.

or

(iii) The goods covered under the IFT are required to be delivered in partial shipments, as specified in Section 6: Schedule of Requirements. Tenders offering deliveries later than the specified deliveries will be adjusted for the purpose of evaluation by adding to the Tender price a factor equal to a percentage, as specified in the TDS, of the Tender price per week of variation from the specified delivery schedule.

(b) Cost of components and mandatory spare parts:

The schedule of items and quantities of major assemblies, components, and selected spare parts, likely to be required during the initial period of operation specified in the TDS is annexed to Section 7: Technical Specifications. The total cost of these items, at the unit prices quoted in each Tender, will be added to the Tender price.

(c) Spare parts and after sales service facilities in Bangladesh:

The cost to the Purchaser of establishing the minimum service facilities
and parts inventories, as outlined in the TDS or Section 7: Technical Specifications, if quoted separately, shall be added to the Tender price.

(d) **Projected operating and maintenance costs:**

Operating and maintenance costs of the goods will be evaluated in accordance with the criteria specified in the TDS or in Section 7: Technical Specifications.

(e) **Performance and productivity of the equipment:**

(i) Tenderers shall state the guaranteed performance or efficiency of their equipment offered in response to Section 7: Technical Specifications. For each drop in the performance or efficiency below the norm of 100, an adjustment for an amount specified in the TDS will be added to the Tender price for the purpose of evaluation, representing the capitalized cost of additional operating costs over the life of the plant, using the methodology specified in Section 7: Technical Specifications.

or

(i) Equipment offered shall have a minimum productivity specified under the relevant provision in Section 7: Technical Specifications, to be considered responsive. Evaluation shall be based on the cost per unit of the actual productivity of goods offered in the Tender, and adjustment will be added to the Tender prices for the purpose of evaluation, using the methodology specified in Section 7: Technical Specifications.

(f) **Specific additional criteria:**

Other specific additional criteria to be considered in the evaluation and the evaluation method to be used for such criteria shall be as specified in the TDS and/or Section 7: Technical Specifications.

42.5 If so indicated in the TDS (ITT Sub-Clause 20.3), the Tender Document shall allow Tenderers to quote separate prices for one or more lots, and shall allow the Purchaser to award one or multiple lots to more than one Tenderer following the methodology specified in ITT Sub-Clause 42.6.

42.6 To determine the lowest evaluated lot, or combination of lots, the Purchaser shall:

(a) evaluate only the lot or lots which comply with the requirements specified in ITT Sub-Clause 20.3;

(b) take into account:

(i) the experience and resources sufficient to meet the aggregate of the qualifying criteria for the individual lots;

(ii) the lowest-evaluated Tender for each lot calculated in accordance with the requirements of Evaluation Criteria;

(iii) the price reduction per lot or combination of lots and the methodology for their application as offered by the Tenderer in its Tender; and

(iv) the Contract award sequence that provides the optimum economic combination, taking into account any limitations due to constraints in supply or execution capacity determined in accordance with the post-qualification criteria under ITT Clause 45.

43. Tender: No 43.1 No negotiation shall be held with the lowest or any other Tenderer.
43.2 A Tenderer shall not be required, as a condition for award, to undertake responsibilities not stipulated in the Tender Document, to change its price or otherwise to modify its Tender.

44.1 The Purchaser shall compare all substantially responsive Tenders to determine the lowest-evaluated Tender, in accordance with ITT Clause 42.

45.1 The Purchaser shall determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated and substantially responsive Tender is qualified to perform the Contract satisfactorily.

45.2 The determination shall be based upon an examination of the documentary evidence of the Tenderer’s qualifications submitted by the Tenderer, pursuant to ITT Clause 24, to clarifications in accordance with ITT Clause 35 and the qualification criteria indicated in ITT Clauses 11, 12 and 13. Factors not included therein shall not be used in the evaluation of the Tenderer’s qualification.

45.3 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in rejection of the Tenderer’s Tender, in which event the Purchaser shall proceed to the next lowest evaluated Tender to make a similar determination of that Tenderer’s capabilities to perform satisfactorily.

46.1 The Purchaser reserves the right to accept any Tender, to annul the Tender process, or to reject any or all Tenders, at any time prior to contract award, without thereby incurring any liability to the affected Tenderers, or any obligation to inform Tenderers of the grounds for the Purchaser’s actions..

G. Contract Award

47.1 The Purchaser shall award the Contract to the Tenderer whose offer is substantially responsive to the Tender Document and that has been determined to be the lowest evaluated Tender, provided further that the Tenderer is determined to be qualified to perform the Contract satisfactorily.

48.1 The Purchaser reserves the right at the time of Contract Award to increase or decrease the quantity, per item, of Goods and Related Services originally specified in Section 6: Schedule of Requirements, provided this does not exceed the percentages indicated in the TDS, and without any change in the unit prices or other terms and conditions of the Tender and the Tender Document.

49.1 Prior to the expiration of the period of Tender validity, the Purchaser shall notify the successful Tenderer, in writing, that its Tender has been accepted.

49.2 Until a formal Contract is prepared and executed, the Notification of Award shall constitute a binding Contract.

49.3 The Notification of Award shall state the value of the proposed Contract, the amount of the Performance Security, the time within which the Performance Security shall be submitted and the time within which the Contract shall be signed.

50.1 Within fourteen (14) days of the receipt of Notification of Award from the Purchaser, the successful Tenderer shall furnish Performance Security for the due performance of the Contract in the amount specified in the TDS, using for that purpose the Performance Security Form (Form G-8) furnished in Section 5: Tender and Contract Forms.
The Performance Security shall be valid until a date twenty-eight (28) days after the date of completion of the Supplier’s performance obligations under the Contract, including any warranty obligations.

The proceeds of the Performance Security shall be payable to the Purchaser unconditionally upon first written demand as compensation for any loss resulting from the Supplier’s failure to complete its obligations under the Contract.

At the same time as the Purchaser issues the Notification of Award, the Purchaser shall send the Contract Agreement and all documents forming the Contract, to the successful Tenderer.

Within twenty-one (21) days of receipt of the Contract Agreement, the successful Tenderer shall sign, date and return it to the Purchaser.

Failure of the successful Tenderer to submit the Performance Security pursuant to ITT Clause 50 or sign the Contract pursuant to ITT Sub-Clause 51.2 shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event, the Purchaser may award the Contract to the next lowest evaluated responsive Tenderer at their quoted price (corrected for arithmetical errors), who is assessed by the Purchaser to be qualified to perform the Contract satisfactorily.

Immediately upon receipt of the signed Contract Agreement and Performance Security from the successful Tenderer, the Purchaser shall discharge and return the successful Tenderer’s Tender Security.

Upon the successful Tenderer furnishing Performance Security pursuant to ITT Clause 50, and signing the Contract pursuant to ITT Sub-Clause 51.2, the Purchaser shall also notify all other Tenderers that their Tenders have been unsuccessful.

The Purchaser shall promptly respond in writing to any unsuccessful Tenderer who, after notification in accordance with ITT Sub-Clause 52.1, requests in writing for the Purchaser to communicate the grounds on which its Tender was not selected.

Any Tenderer has the right to complain if it has suffered or may suffer loss or damage due to a branch of a duty imposed on the Purchaser by the Public Procurement Regulations 2003 (PPR).

The Complaint shall firstly be processed through an administrative review following the procedures set out in Regulation 51 of the PPR. The place and address for the first step in the submission of complaints to the Administrative Authority is provided in the TDS.

If not satisfied with the outcome of the administrative review, the Tenderer may complain to the Review Panel pursuant to Regulation 53 of the PPR.
